

1.1 Tensors 1D

LATEST SUBMISSION GRADE

100%

1. what is the result of the following:

1 / 1 point

```
1 a=torch.tensor([1,2,3])  
2 a.dtype
```

☒ torch.int64

☐ torch.float32

✓ **Correct**
correct

2. What does the method

1 / 1 point

```
1 item()
```

perform

☒ gets a Python number from a tensor containing a single value

☐ returns a python list
